STANDARD CUTS GAS PRICE IN TWIN CITIES

**REDUCTIONS MADE,

ER, STATED

(By United Press)
St. Paul, Oct. 3.—Standard
Oil filling stations in the Twin
Cities today cut prices another
two cents a gallon to "meet com-
petition."

Independent companies an-
nounced they would meet the
price.

The new price in the Twin Cities
is 14.9 cents a gallon for Red Crown
and 17.9 cents a gallon for high
test. No reduction will be made at
once outside the Twin Cities, it was
announced. A cut throughout
northwest territory may come later.

Some independent oil dealers in
announcing they would meet the
new price said the cut was justified
by the present condition of the
market, which is glutted with crude
oil. They said they could meet the
new price and still make a profit.

Standard Oil company representa-
tives said that the present gasoline
prices are below cost of production
and distribution, adding that they
did so only "to meet competition."

Two months ago retail prices
throughout the Northwest were cut
6.6 cents. This followed a move by
Governor W. H. McMaster of South
Dakota to sell gasoline to the public
at 16 cents a gallon at the state sup-
ply station at Mitchell.

The new price war took motorists
by surprise. No intimation of the
cut was given until filling stations
hung up the new price this morn-
ing.

ROYAL ARCH MASONS OF STATE TO MEET

CONVOCATION IN MILL CITY PRE-
PARED BY 750, WITH 1,000
DEGREES TO BE CONFERRED

Minneapolis, Oct. 3.—Royal Arch
Masons of Minnesota will conduct a
mammoth convocation in Minneap-
olis Nov. 17 at the Kenwood armory
under the joint auspices of the Royal
Arch chapters of the twin cities.

The past master and most excel-
lent master degrees will be conferred
on a class of more than 1,000 candi-
dates. All chapters in Minnesota
have been invited by the twin city
chapters to participate in the con-
vocation by having as many as possible
of their members attend, and also
by bringing their candidates to have
the work conferred on them.

Hundreds of Royal Arch Masons
from all parts of Minnesota are ex-
pected to attend the convocation.
There will be special rates upon all
the railroads entering Minneapolis
for the benefit of chapter Masons
who desire to attend.

All the grand officers of the York
Rite bodies of Minnesota and also
of a number of other states will be pres-
ent. They will be attended by es-
corts of Knights Templar in full uni-
form.

Dr. William F. Kuhn of Kansas
City, general grand high priest of
the general grand chapter of the
United States, has been invited to
attend the convocation.

The convocation committee is pre-
paring to put the ritualistic work
on in a more impressive and spec-
tacular manner than ever before at-
tempted. Approximately 750 Royal
Arch Masons will take part in the
work. The principal parts will be
handled by some of the most promi-
nent Masonic workers in the United
States. A chorus of 150 voices and
an orchestra of 75 pieces will take
part in the exemplification of the
degrees.

**MOVIE CENSORSHIP
PLAYED IN REPORT
TO LABOR SESSION**

Portland, Ore., Oct. 3.—That
censorship of motion pictures is
dangerous to the freedom of
speech and the press, guaranteed
by the constitution, was declared
in a report submitted at the 10th
annual convention of the Interna-
tional Labor Press of America,
by its president, Matthew Woll.

"We are fast approaching the
older European methods of re-
pression," said Woll.

"Slowly but surely freedom of
speech and of the press and as-
semblages are being converted in-
to mere licenses, subject to such
conditions and restrictions as may
be imposed by a political board of
censorship."

**GUARDS AND
CONVICTS BATTLE
IN STATE PRISON**

(By United Press)

Eddyville, Ky., Oct. 3.—A battle
was being waged in the Kentucky
state prison here this morning be-
tween guards and convicts. The pris-
oners, surprised in an attempted jail
delivery, opened fire on the guards,
killing one. The convicts later bar-
ricaded themselves in the prison kitchen,
where they are holding guards
at bay.

Convicts Hold Guards at Bay
Kentucky State Prison, Eddyville,
Ky., Oct. 3.—Barricaded behind the
prison dining room doors following
the slaying of one guard and wound-
ing of three others in their dash for
freedom, three convicts held guards
at bay here this afternoon.

The convicts, armed with blue
steel automatics, attacked the guards
at 7:30 a. m. Hodge Cunningham,
guard, was slain by the first volley
of shots, and Will Gilbert, L. B. Mat-
tingly and William Gillham, guards
were wounded, according to Warden
John Chilton.

The first outbreak threw the prison
into an uproar. Guards raced to the
aid of their fellows, and the three
convicts fortifying themselves in the
dining room kept up a steady fire at
the baffled guards.

All attempts to dislodge the three
men from their citadel failed during
the morning, and the guards had to
content themselves with surrounding
the room and keeping a close watch
on all doors.

Warden Chilton kept his men
from attacking in order that more
bloodshed should be avoided. Other
prisoners listened passively to the
wild shouts and barking of guns,
making no attempt to escape.

The three besieged convicts were
all sentenced for murder, according
to the warden. The ywere:
Monte Walter, Louisville, lifer;
Lawrence Griffith, Mayfield, lifer,
and Henry Serland Newport, serv-
ing 16 years.

That the guns were smuggled in
by pals on the outside was the theory
of the warden.

administration, committed suicide
at his home by shooting at 10:15
this morning. Ill health for a long
period was given as the reason by
members of his family.

**1,250,000 BALES MORE
COTTON IS FORECAST**

Washington, Oct. 3.—A cotton
crop larger by a million and a quar-
ter bales than last year's was fore-
cast by the department of agricul-
ture which placed production at 11-
915,000 bales. The forecast, the
last of the season until the December
estimate, was 227,000 bales more
than indicated last month.

**SUPERIOR, WIS., FIREMEN FIGHT
BLAZE 12 MILES OUT AT
ANDERSON HILL**

(By United Press)

Duluth, Minn., Oct. 3.—The
Minnesota iron range and north-
ern Wisconsin are dotted with
brush, peat and small timber
fires.

Developing within the last 24
hours, the fires have become a
serious menace in some sections.

Fires east and south of Superior
are the most serious on the Wiscon-
sin side.

Flames near Orr and Tower on the
Minnesota iron range are threaten-
ing. There are numerous small fires
along the north shore of Lake Superi-
or and near Hibbing and Cloquet,
most of which are under control. Du-
luth and Superior are under a pall
of heavy smoke.

Farmers along Wisconsin state
highway No. 10 east of Superior are
making ready to move out. Many
have moved their families to towns
along the railroads to escape the
menace.

Superior firemen and police were
called upon last night to fight a
menacing fire 12 miles south of
there between South Range and An-
derson Hill. A score of volunteer
firemen formed two groups, attack-
ing the fire from two sides. Driven
by a northwest wind, the flames
threatened a settlement of 200 in
that district.

A serious fire is burning at Big
Sturgeon Lake near Hibbing, the
"richest village in the world," on
the Minnesota range. Farm prop-
erty and lake dwellings are menaced.

Peat bogs in the Chisholm dis-
trict are burning. There are num-
erous brush fires in the upper lake
country.

The state forestry department has
cancelled all brush burning per-
mits.

Drought the last three weeks and
heavy frosts have made the timber
dry as tinder.

**SITUATION IN
BRAINERD DISTRICT**

E. H. Rhodes, forester in the
Brainerd district, reports that the
only threatening fires in this vicin-
ity are in Ansel and McKinley town-
ships of Cass county, some forty
miles northwest of Brainerd. These
are peat fires which have been burn-
ing for some little time.

Other small fires, which Mr.
Rhodes reports as being well under
control are several near Emily, in
the northern part of Crow Wing
county, one north of Crosby and one
near Motley. The latter one was
reported on Tuesday, and on Wed-
nesday morning was said to be under
control.

According to Mr. Rhodes, there
are no fires east of Brainerd in his
district.

here at 6:48 this morning from
her trip to St. Louis.

The ground crew was await-
ing her and speedily landed the
big airship. She made the re-
turn trip in 21 hours.

The air monster was sighted from
the hangar at eight minutes after
six. The ground crew was called
and was ready to land the huge
craft a few minutes later. The di-
rigible made 60 knots over Pennsylv-
ania, according to Commander Mc-
Crary, who piloted the dirigible on
the trip.

Rear Admiral Moffett, chief of the
Naval Bureau of Aeronautics, board-
ed the ship in St. Louis and made
the return trip with a rear admiral's
flag hoisted and fluttering in the
breeze for the first time in history
on such a craft.

The naval dirigible made the 1100

**NATIONAL BANKS
FORBIDDEN TO HAVE
BRANCH BANKS**

(By United Press)

Washington, Oct. 3.—Attorney-
General Daugherty has ruled that
national banks are forbidden to con-
duct branch banks, Comptroller of
the Currency Dawes told the con-
gressional committee investigating
banking today.

Dawes also declared that branch
banking has grown to such propor-
tions in some states that "it threat-
ens the balance of the Federal re-
serve system," and that unless it is
curbed it will constitute a serious
menace to the reserve plan.

Daugherty's opinion was Dawes
said, that national banks might
maintain offices for receiving depos-
its or cashing checks outside the
main bank building but could not
legally conduct major banking op-
erations outside the main office.

**LONG DRAWN OUT
COURT BATTLE
IN OKLAHOMA**

TO TEST THE LEGALITY OF TUES-
DAY'S ELECTION IN THAT
STATE

**INITIATED AMENDMENT TO CON-
STITUTION WAS ADOPTED
OVERWHELMINGLY**

(By United Press)

Oklahoma City, Oct. 3.—A
long drawn out court fight was
in prospect today to test the le-
gality of Tuesday's election in
Oklahoma, at which an initiated
amendment to the constitution
providing that the legislature
may convene itself without call
from the governor was adopted
overwhelmingly.

Governor J. C. Walton, who op-
posed the election with all the power
at his command, consulted legal ad-
visors today concerning the matter.
The fight will be made by the gov-
ernor on the ground that the initiated
measure was not advertised at least
five days before the election as re-
quired by the Oklahoma statute.

Three other proposed constitu-
tional amendments were defeated.

These provided for soldier's bonus;
including death as well as injury
under the workmen's compensation
act; and making the state liable for
losses by depositors in the state
banks which fail.

Returns from 1577 precincts out
of 2837 in the state, tabulated at an
early hour today, showed the meas-
ure initiated by the agitators for the
impeachment of the governor was
carrying four to one. The vote was
148,722 for the measure and 37,752
against.

The governor claimed he had gained
great moral support for his cam-
paign against the Ku Klux Klan as
a result of the balloting. He said
the Klan would be blamed by voters
for the defeat of the soldiers bonus,
by workmen for the failure of the
advanced compensation measure,
and by depositors who have suffered
losses for the defeat of their meas-
ure.

"The Klan is to blame," Walton
said.

The vote was extremely light—
about half of the 450,000 cast in the
last general election in Oklahoma.
The governor's supporters it is
claimed by many people remained
away from the polls because of Wal-
ton's opposition. Scattered polls
throughout the state failed to open,
in obedience to the governor's or-
ders, while in two counties no votes
were cast due to failure of the polls
to open.

Anti-Walton forces declared the
result was a wholesale indictment
of the governor and condemnation of
the course which he has followed by
the people of Oklahoma.

"The people of Oklahoma have de-
livered a thunderous rebuke to the
governor's highhanded methods of
handling state affairs," said W. D.
McBee, leader of the faction in the
state legislature demanding impeach-
ment of the governor.

McBee said the legislature will at-
tempt to assemble as soon as the le-
gality of the election can be deter-
mined and start impeachment pro-
ceedings.

**GOVERNOR MOVES TO

Oklahoma City, Oct. 3.—Governor
J. C. Walton moved today to nullify
the result of Tuesday's statewide
election at which Oklahoma voters
approved a constitutional amend-
ment permitting the legislature to
start impeachment proceedings
against the executive.

against removal from office by ene-
mies who he claims were incurred
through his efforts to establish the
supremacy of the visible government
over the Ku Klux Klan, the governor

with gathering for an attempted

Authorities said the plot was
similar to that at Kuestrin which
was broken up by the loyalty of

Dolberitz was the starting point
of the Von Kapp coup of March,
1920. It always has been the cen-
ter of monarchist plotting. It has

INSTITUTION**

(By United Press)

Washington, Oct. 3.—Marriage is a
decaying institution in the United
States, final returns of the marriage
and divorce census taken last year
by the census bureau and published
today indicated.

For the first time in the history of
the country the marriage rate has
ceased its steady growth and is fall-
ing off.

The divorce rate, the same returns
showed, is continuing to grow.

The actual marriage rate for 1922,
the Bureau reports revealed, was
1033 per 100,000 population, against
1055 in 1916, 1030 in 1906, 930 in
1900 and 910 in 1890.

The divorce rate was 136 per 100-
000 population, against 112 in 1916,
84 in 1906, 73 in 1900, and 53 in
1890.

(By United Press)

Manila, P. I., Oct. 3.—The Kuezon
or anti-Wood group seemed today to
have won a decided victory in yester-
day's election.

The election was precipitated by
the recent clash between the Gov-
ernor-general Wood and Filipino lead-
ers which had its climax in the re-
signation of the cabinet.

Returns today indicated that Ray-
mond Fernandez, the coalition can-
didate, supported by Manuel Kuezon,
anti-Wood leader, was elected to the
legislature over Juan Sumalong,
candidate of the Democratic party,
by a 15,000 plurality.

petitioned the courts to decide the
balloting invalid. On petition of the
governor the district court granted
a temporary injunction restraining
the state election board from certifi-
fying the result of Tuesday's "pre-
tended election."

A hearing will be held later on
whether the writ will be made perma-
nent, and the district court's final
decision probably will be carried to
the supreme court.

As the legal battle got under way,
legislators who directed the agita-
tion for the impeachment of Walton
met in secret session here to outline
their plan of action.

by Governor Warren McCray's

made the occasion of a warning
from President Coolidge to those
who would draw him into local
or state political squabbles that
he wants to be let alone to do his

The "highest authority" at the

his party has been sought.

NORTHERN WISCONSIN**

**SUPERIOR, WIS., FIREMEN FIGHT
BLAZE 12 MILES OUT AT
ANDERSON HILL**

(By United Press)
Duluth, Minn., Oct. 3.—The Minnesota iron range and northern Wisconsin are dotted with brush, peat and small timber fires.

Developing within the last 24 hours, the fires have become a serious menace in some sections.

Fires east and south of Superior are the most serious on the Wisconsin side.

Flames near Orr and Tower on the Minnesota iron range are threatening. There are numerous small fires along the north shore of Lake Superior and near Hibbing and Cloquet, most of which are under control. Duluth and Superior are under a pall of heavy smoke.

Farmers along Wisconsin state highway No. 10 east of Superior are making ready to move out. Many have moved their families to towns along the railroads to escape the menace.

Superior firemen and police were called upon last night to fight a menacing fire 12 miles south of there between South Range and Anderson Hill. A score of volunteer firemen formed two groups, attacking the fire from two sides. Driven by a northwest wind, the flames threatened a settlement of 200 in that district.

A serious fire is burning at Big Sturgeon Lake near Hibbing, the "richest village in the world," on the Minnesota range. Farm property and lake dwellings are menaced. Peat bogs in the Chisholm district are burning. There are numerous brush fires in the upper lake country.

The state forestry department has cancelled all brush burning permits.

Drough the last three weeks and heavy frosts have made the timber dry as tinder.

**SITUATION IN
BRAINERD DISTRICT**

E. H. Rhodes, forester in the Brainerd district, reports that the only threatening fires in this vicinity are in Ansel and McKinley townships of Cass county, some forty miles northwest of Brainerd. These are peat fires which have been burning for some little time.

Other small fires, which Mr. Rhodes reports as being well under control are several near Emily, in the northern part of Crow Wing county, one north of Crosby and one near Motley. The latter one was reported on Tuesday, and on Wednesday morning was said to be under control.

According to Mr. Rhodes, there are no fires east of Brainerd in his district.

**WANT TO DISMISS
INDICTMENTS VS.
BENEDICT CROWELL**

(By United Press)
Washington, Oct. 3.—Demanding dismissal of indictments against Benedict Crowell, Cleveland, O., former assistant secretary of war, on charges of conspiracy to defraud the government in connection with the building of army cantonments, counsel for Crowell and others indicted told the District of Columbia supreme court today that if Crowell was guilty, former President Wilson and Newton D. Baker, then secretary of war ought to have been indicted also.

New York, Oct. 3.—With 36 rubles among them—and a ruble is worth only a little bit more than a German mark—39 titled Russian men and women arrived today with a boat load of other immigrants in the steerage of the steamship Constantino.

Among the shareholders of the 36 rubles were 11 princes, 12 princesses, six barons, eight baronesses and two counts.

(By United Press)
Lakehurst, N. J., Oct. 3.—The naval dirigible ZR-1 arrived here at 6:48 this morning from her trip to St. Louis.

The ground crew was awaiting her and speedily landed the big airship. She made the return trip in 21 hours.

The air monster was sighted from the hangar at eight minutes after six. The ground crew was called and was ready to land the huge craft a few minutes later. The dirigible made 60 knots over Pennsylvania, according to Commander McCray, who piloted the dirigible on the trip.

Rear Admiral Moffett, chief of the Naval Bureau of Aeronautics, boarded the ship in St. Louis and made the return trip with a rear admiral's flag hoisted and fluttering in the breeze for the first time in history on such a craft.

The naval dirigible made the 1100 miles between Lakehurst and St. Louis in 22 hours and made the return trip in 1 minute more than 21 hours.

**NATIONAL BANKS
FORBIDDEN TO HAVE
BRANCH BANKS**

(By United Press)
Washington, Oct. 3.—Attorney-General Daugherty has ruled that national banks are forbidden to conduct branch banks, Comptroller of the Currency Dawes told the congressional committee investigating banking today.

Dawes also declared that branch banking has grown to such proportions in some states that "it threatens the balance of the Federal reserve system," and that unless it is curbed it will constitute a serious menace to the reserve plan.

Daugherty's opinion was Dawes said, that national banks might maintain offices for receiving deposits or cashing checks outside the main bank building but could not legally conduct major banking operations outside the main office.

Monroe has taken on resplendent decorations in commemoration of the event which is renewed after a lapse of more than five years.

**LONG DRAWN OUT
COURT BATTLE
IN OKLAHOMA**

**TO TEST THE LEGALITY OF TUES-
DAY'S ELECTION IN THAT
STATE**

**INITIATED AMENDMENT TO CON-
STITUTION WAS ADOPTED
OVERWHELMINGLY**

(By United Press)
Oklahoma City, Oct. 3.—A long drawn out court fight was in prospect today to test the legality of Tuesday's election in Oklahoma, at which an initiated amendment to the constitution providing that the legislature may convene itself without call from the governor was adopted overwhelmingly.

Governor J. C. Walton, who opposed the election with all the power at his command, consulted legal advisors today concerning the matter. The fight will be made by the governor on the ground that the initiated measure was not advertised at least five days before the election as required by the Oklahoma statute.

Three other proposed constitutional amendments were defeated. These provided for soldier's bonus; including death as well as injury under the workmen's compensation act; and making the state liable for losses by depositors in the state banks which fail.

Returns from 1577 precincts out of 2837 in the state, tabulated at an early hour today, showed the measure initiated by the agitators for the impeachment of the governor was carrying four to one. The vote was 148,722 for the measure and 37,752 against.

The governor claimed he had gained great moral support for his campaign against the Ku Klux Klan as a result of the balloting. He said the Klan would be blamed by voters for the defeat of the soldiers bonus, by workmen for the failure of the advanced compensation measure, and by depositors who have suffered losses for the defeat of their measure.

"The Klan is to blame," Walton said.

The vote was extremely light—about half of the 450,000 cast in the last general election in Oklahoma. The governor's supporters it is claimed by many people remained away from the polls because of Walton's opposition. Scattered polls throughout the state failed to open, in obedience to the governor's orders, while in two counties no votes were cast due to failure of the polls to open.

Anti-Walton forces declared the result was a wholesale indictment of the governor and condemnation of the course which he has followed by the people of Oklahoma.

"The people of Oklahoma have delivered a thunderous rebuke to the governor's highhanded methods of handling state affairs," said W. D. McBee, leader of the faction in the state legislature demanding impeachment of the governor.

McBee said the legislature will attempt to assemble as soon as the legality of the election can be determined and start impeachment proceedings.

**GOVERNOR MOVES TO
NULLIFY ELECTION**

Oklahoma City, Oct. 3.—Governor J. C. Walton moved today to nullify the result of Tuesday's statewide election at which Oklahoma voters approved a constitutional amendment permitting the legislature to start impeachment proceedings against the executive.

Fighting with his back to the wall against removal from office by enemies who he claims were incurred through his efforts to establish the supremacy of the visible government over the Ku Klux Klan, the governor

**MILITARY CAMP IN
GERMANY HAS MADE
200 ARRESTS TODAY**

(By United Press)
Berlin, Oct. 3.—The military today arrested 200 men in the neighborhood of Dolberitz Camp, outside Berlin. They are charged with gathering for an attempted military coup against the government.

Authorities said the plot was similar to that at Kuestrin which was broken up by the loyalty of government troops.

Dolberitz was the starting point of the Von Kapp coup of March, 1920. It always has been the center of monarchist plotting. It has a large and important garrison.

**MARRIAGE IS
A DECAYING
INSTITUTION**

(By United Press)
Washington, Oct. 3.—Marriage is a decaying institution in the United States, final returns of the marriage and divorce census taken last year by the census bureau and published today indicated.

For the first time in the history of the country the marriage rate has ceased its steady growth and is falling off.

The divorce rate, the same returns showed, is continuing to grow.

The actual marriage rate for 1922, the Bureau reports revealed, was 1033 per 100,000 population, against 1055 in 1916, 1030 in 1906, 930 in 1900 and 910 in 1890.

The divorce rate was 136 per 100,000 population, against 112 in 1916, 84 in 1906, 73 in 1900, and 53 in 1890.

Cincinnati, O., Oct. 3.—A girl who says she is Marcella Ross, 20, of Louisville, was in general hospital today seriously injured after being thrown from an automobile by a man who took her for a ride. Both legs were fractured, her nose broken and her body cut and bruised. She may recover. The girl said she was invited by the man to go with him to get something to eat. She was hungry and went with him, she said. The victim believes she was knocked unconscious by a blow on the head, and when she regained consciousness she was lying in the street.

**ANTI-WOOD GROUP
WINS IN ELECTION
IN PHILIPPINES**

(By United Press)
Manila, P. I., Oct. 3.—The Kuezon or anti-Wood group seemed today to have won a decided victory in yesterday's election.

The election was precipitated by the recent clash between the Governor-general Wood and Filipino leaders which had its climax in the resignation of the cabinet.

Returns today indicated that Raymond Fernandez, the coalition candidate, supported by Manuel Kuezon, anti-Wood leader, was elected to the legislature over Juan Sumalong, candidate of the Democratic party, by a 15,000 plurality.

petitioned the courts to decide the balloting invalid. On petition of the governor the district court granted a temporary injunction restraining the state election board from certifying the result of Tuesday's "pretended election."

A hearing will be held later on whether the writ will be made permanent, and the district court's final decision probably will be carried to the supreme court.

As the legal battle got under way, legislators who directed the agitation for the impeachment of Walton met in secret session here to outline their plan of action.

Washington, Oct. 3.—The political tempest in Indiana caused by Governor Warren McCray's financial troubles today was made the occasion of a warning from President Coolidge to those who would draw him into local or state political squabbles that he wants to be let alone to do his work.

The "highest authority" at the White House through whom statements on behalf of the administration are made said with more than usual emphasis that Mr. Coolidge had taken no hand in the Indiana party situation, would take no hand in it, and would have nothing to do in situations in states where his influence in behalf of one faction of his party has been sought.

Chiropractic for the Baby

A chiropractor is baby's best friend and well-wisher because he knows how to circumvent internal troubles that are due to spinal abnormalities which have a tendency to develop chronic afflictions later on in baby's life. Your chiropractor is most deeply concerned in the Good Health of your precious one and stands ready to adjust the cause of any malady. And the only tools used will be your chiropractor's hands. Let your chiropractor see your baby regularly, as an aid to Nature and a safeguard against disease.

Consultation, spinal analysis and booklets free. House and country calls made, day or night.

School started out with a variety of communicable diseases. Seventeen cases of measles were in one room, which had been exposed by one child. Notices were sent the parents, telling them of the exposure in order that they might watch for the first symptoms.

All children not immune in families

having the disease were excluded. No new cases among school children have developed.

No new cases of whooping cough have developed, since the second week of school.

All fifteen-year old boys that failed to start to school have been looked up by the truant officer and are now in school.

Two cases of blind children were reported to the new department for the blind of the State Board of Control.

The city and school nurse spent September 22, 23 and 24 at a conference in Duluth. The public health section of this conference was very helpful.

SINGER FEARS A NEW WAR

Returning from Europe on the S. S. "FRANCE", Florence Macbeth, leading soprano of the Chicago Civic Opera Company, says that there exists the bitterest feeling in France towards England over the Ruhr question and reparations in general, and that the increasing friction may at any moment provide the spark to set Europe ablaze again.

BABY CLINIC ON OCTOBER 5 AND 6

A baby clinic will be held in the rest room of the city hall on Friday and Saturday, October 5th and 6th, from 9 a. m. to 5 p. m.

This clinic is given under the auspices of the Minnesota Public Health Association, and is financed by the sale of Christmas seals.

Dr. M. D. Ott, who is a children's specialist, will conduct the clinic.

These clinics were established for the purpose of keeping the well children well and for discovering slight physical defects which, if not corrected in time, might become permanent defects.

Children of school age will be examined as well as babies.

Clinics are also scheduled for Deerpark, on Monday, Emily on Tuesday, Dykeman on Wednesday and Ft. Ripley on Thursday. Miss Eula Michael, city and school nurse, will be in charge of the clinics in Brainerd, and Miss Thora Ingebritson, county nurse, in the clinics elsewhere in the county.

"U" ENROLMENT IS 396 MORE THAN LAST YEAR

Minneapolis, Oct. 3—Collegiate registrations at the University of Minnesota show a total enrolment of 8,300 students, which is 396 more than at the end of the first week last

year, R. M. West, university registrar said.

The college of education has this year passed the 1,000 mark for the first time at the opening of the year.

Students registered in correspondence courses, the university high school, in short courses and early registration in the night extension courses, brings the total registration to 10,198.

DUSTY DIAMONDS

DUSTY diamonds fittingly describes nuggets of anthracite coal. They glitter under the light and they cost almost as much as the diamonds. Household look longingly and appreciatively upon each shovelful before it is committed to the furnace and sometimes try to calculate how much that shovelful costs.

Anthracite coal costs too much; of that the consumer is fully convinced and investigations are disclosing who gets the money paid for it by those using it. It seems from what has been brought to light that everybody in the business gets just a little bit too much for this luxury, but, perhaps, because it is a luxury this is to be expected. However, few would complain of the amount added to its cost by the retailer. His expenses are many: there is the unloading, the storing, the hauling and the amount that must be added to take care of bad accounts. Consumers are not so sure that the transportation costs are not too high. And yet when they remember that the railroads are facing serious problems in reconstruction, they might overlook this toll, were it not for the fact that the railroads are in many cases also the producers of the coal, having a heavy interest in the mines. But when the consumer reads of the profits made by the coal companies he is ready to be critical. A reasonable profit is justified but the unreasonable profit made by the coal operators is not justified in the light of the burden the consumer is compelled to carry.

It is sometimes claimed that the wages paid the miners are responsible for the high cost of coal, and this does go towards placing the price where it is, but while the miner is getting about what he needs to live according to a decent standard of living the operators are getting profits that constitute an unreasonable toll on the industry. Perhaps labor is not doing what it ought to do for the wages received, and production may be hindered by this, but the public is not ready to believe that the operators are particularly interested in increased production as a larger production would tend to lower prices.

In the anthracite industry the operators and the workers hold a position where they have the consumers by the throat. They can afford to work together for each other's advantage which means working together to the disadvantage of the public. But the kindly disposed public will not tolerate this condition forever. The demand will be made that the anthracite fields produce more and allow the law of supply and demand to work its sweet will upon the price of the product. In this industry this law is not operative, for all kinds of checks including strikes are used to offset the benefits that would accrue to the consumer if the law worked.

Substitutes must be found for anthracite. If it cannot be produced at a price that is reasonable substitutes must be found to take its place. It costs too much. Ten per cent of an income of from one to three thousand dollars a year is too much to pay for keeping warm during five or six months of the year.

JOHN MORLEY

VISCOUNT MORLEY of Blackburn who has just died will always be remembered by the British people as John Morley and the people who have reached the age of maturity will remember him as "Honst John." Viscount Morley won that name when he served in Parliament and sought to be true to his convictions despite the pressure of party and power.

A great man has fallen. He was one of the outstanding men of his generation, one of those men whose interests were varied and whose culture was remarked. For many years, despite the prominence to which he had attained, he refused to accept any title and it was not until the more active years of his life were passed that he consented to accept a title and to pass into the upper house.

Lord Morley will be remembered as a parliamentarian, a statesman, as a writer on philosophical subjects and as the author of what has been said to be the greatest political biography ever written in the English language, his "Life of Gladstone."

Lord Morley was respected for his intellectual honesty and for his broad tolerance. Although himself an agnostic he paid the highest tribute to Mr. Gladstone's religion in his great biography. His intellectual integrity led to his standing firmly for his convictions which led the people to call him "Honst John." An example of this was furnished when Britain entered the World war. He believed that Britain should keep out of continental disputes and he was opposed to war and rather than lend his name to such a struggle he resigned his membership in the British parliament.

The passing of such a man reminds the British public that few men of this type are to be found in parliament today. Men like Lloyd George know little of the culture of such men as Lord Morley and the personnel of the parliament is of an inferior quality. It is probable that their inferiority is reflected in world conditions. But the people choose inferior leaders and the splendid culture of men like Gladstone and Morley is not as widely diffused as it used to be. Our practical age, which measured by its political outcroppings in Europe is not any too successful, is not turning out men who are generally of as high a culture as did the age in which John Morley spent his youth. We have more educated people and fewer cultured people. John Morley's passing leaves another gap in the ranks of those whose high attainments were won in the realm of scholarship and high thinking.

GILBERT EXPENDITURES HALTED BY INJUNCTION

Gilbert, Minn., Oct. 3.—Iron mining companies are trying to prevent the village fathers from being "extravagant."

An injunction has been issued restraining the village from expending for general corporation purposes, any sum of money in excess of the levy for this year. The petitioners were the Republic Iron & Steel company, the Hanna Iron Mining company and the Oliver Mining company. The injunction ties up September pay checks, sidewalk construction and work on the village warehouse now being built.

The limit of money for expenditures is \$112,000, the companies contend and any sum in excess of that spent is illegal. A hearing was set for Oct. 20 at Virginia.

MILLE LACS INDIANS TO GET U. S. LAND SOON

Washington, Oct. 3.—Enrollment of homeless Milie Lacs Indians of Minnesota has been completed and allotment of land to them will be made soon. It was learned at the department of interior.

There are 370 of these Indians. In the last appropriation act for the interior department congress appropriated \$10,000 to be expended by the secretary of the interior in enrolling and allotting lands to the

homeless Milie Lacs Indians of Minnesota, being in such a condition they could not be moved to permanent Indian reservations.

An official of the Indian office in July began enrolling these Indians and arranging for the allotments. These lands already have been purchased and now are being surveyed into tracts of appropriate size to accommodate an Indian and his family. As soon as this work is completed, the allotments will be made to each one of the 370 as a permanent home.

Brainerd People Are Doing All They Can for Fellow Sufferers

Brainerd testimony has been published to prove the merit of Doan's Kidney Pills to others in Brainerd who suffer from bad backs and kidney ills. Lost any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Brainerd people who again endorse Doan's Kidney Pills—confirm their

former testimony. Here's a Brainerd case:

Mrs. W. H. Everest, 807-7th St., says: "I had terrible pains in my back that fairly made me sick. If I exerted myself, my back became sore and lame and it was hard for me to do my housework. My kidneys didn't act as they should and as Doan's Kidney Pills had been used in the family with good results, I started taking them. A few Doan's from Johnson's Drug Store soon gave me relief."

The above statement was given November 13, 1917 and on August 19, 1921, Mrs. Everest added: "Doan's cured me and I am glad to confirm my former statement."

DUSTY DIAMONDS

DUSTY diamonds fittingly describes nuggets of anthracite coal. They glitter under the light and they cost almost as much as the diamonds. Householders look longingly and appreciatively upon each shovelful before it is committed to the furnace and sometimes try to calculate how much that shovelful costs.

Anthracite coal costs too much; of that the consumer is fully convinced and investigations are disclosing who gets the money paid for it by those using it. It seems from what has been brought to light that everybody in the business gets just a little bit too much for this luxury, but, perhaps, because it is a luxury this is to be expected. However, few would complain of the amount added to its cost by the retailer. His expenses are many: there is the unloading, the storing, the hauling and the amount that must be added to take care of bad accounts. Consumers are not so sure that the transportation costs are not too high. And yet when they remember that the railroads are facing serious problems in reconstruction, they might overlook this toll, were it not for the fact that the railroads are in many cases also the producers of the coal, having a heavy interest in the mines. But when the consumer reads of the profits made by the coal companies he is ready to be critical. A reasonable profit is justified but the unreasonable profit made by the coal operators is not justified in the light of the burden the consumer is compelled to carry.

It is sometimes claimed that the wages paid the miners are responsible for the high cost of coal, and this does go towards placing the price where it is, but while the miner is getting about what he needs to live according to a decent standard of living the operators are getting profits that constitute an unreasonable toll on the industry. Perhaps labor is not doing what it ought to do for the wages received, and production may be hindered by this, but the public is not ready to believe that the operators are particularly interested in increased production as a larger production would tend to lower prices.

In the anthracite industry the operators and the workers hold a position where they have the consumers by the throat. They can afford to work together for each other's advantage which means working together to the disadvantage of the public. But the kindly disposed public will not tolerate this condition forever. The demand will be made that the anthracite fields produce more and allow the law of supply and demand to work its sweet will upon the price of the product. In this industry this law is not operative, for all kinds of checks including strikes are used to offset the benefits that would accrue to the consumer if the law worked.

Substitutes must be found for anthracite. If it cannot be produced at a price that is reasonable substitutes must be found to take its place. It costs too much. Ten per cent of an income of from one to three thousand dollars a year is too much to pay for keeping warm during five or six months of the year.

JOHN MORLEY

VISCOUNT MORLEY of Blackburn who has just died will always be remembered by the British people as John Morley and the people who have reached the age of maturity will remember him as "Honest John." Viscount Morley won that name when he served in Parliament and sought to be true to his convictions despite the pressure of party and power.

A great man has fallen. He was one of the outstanding men of his generation, one of those men whose interests were varied and whose culture was remarked. For many years, despite the prominence to which he had attained, he refused to accept any title and it was not until the more active years of his life were passed that he consented to accept a title and to pass into the upper house.

Lord Morley will be remembered as a parliamentarian, a statesman, as a writer on philosophical subjects and as the author of what has been said to be the greatest political biography ever written in the English language, his "Life of Gladstone."

Lord Morley was respected for his intellectual honesty and for his broad tolerance. Although himself an agnostic he paid the highest tribute to Mr. Gladstone's religion in his great biography. His intellectual integrity led to his standing firmly for his convictions which led the people to call him "Honest John." An example of this was furnished when Britain entered the World war. He believed that Britain should keep out of continental disputes and he was opposed to war and rather than lend his name to such a struggle he resigned his membership in the British parliament.

The passing of such a man reminds the British public that few men of this type are to be found in parliament today. Men like Lloyd George know little of the culture of such men as Lord Morley and the personnel of the parliament is of an inferior quality. It is probable that their inferiority is reflected in world conditions. But the people choose inferior leaders and the splendid culture of men like Gladstone and Morley is not as widely diffused as it used to be. Our practical age, which measured by its political outcroppings in Europe is not any too successful, is not turning out men who are generally of as high a culture as did the age in which John Morley spent his youth. We have more educated people and fewer cultured people. John Morley's passing leaves another gap in the ranks of those whose high attainments were won in the realm of scholarship and high thinking.

GILBERT EXPENDITURES HALTED BY INJUNCTION

Gilbert, Minn., Oct. 3.—Iron mining companies are trying to prevent the village fathers from being "extravagant."

An injunction has been issued restraining the village from expending for general corporation purposes, any sum of money in excess of the levy for this year. The petitioners were the Republic Iron & Steel company, the Hanna Iron Mining company and the Oliver Mining company. The injunction ties up September pay checks, sidewalk construction and work on the village warehouse now being built.

The limit of money for expenditures is \$112,000, the companies contend and any sum in excess of that spent is illegal. A hearing was set for Oct. 20 at Virginia.

ARRAIGNED ON SERIOUS CHARGE

Young Man's Bail Set at \$2,000 and Examination Set for Oct. 6

4 UP ON BREAKING GAME LAW Each Fined \$10 for Carrying Guns in Their Automobile Contrary to Law

In municipal court Wednesday morning Gerald Driscoll was arraigned, charged with carnal knowledge of a 14-year old girl. An examination was demanded, and will be heard on Saturday, October 6th. Bail was set at \$2,000.

Four men were haled into court by Deputy Game Warden A. P. Cardie, charged with carrying guns in their automobile contrary to law. The men were M. E. Satchell, Donald M. Young, Walter Spornitz and E. G. Warner. Each plead guilty to the charge and was fined \$10.

It is against the game laws to carry a gun in a vehicle unless said gun is in its case or taken apart.

Notice of appeal to the district court in the W. T. Larrabee case was filed this morning. There are two charges against this defendant, one for permitting gambling, the other for maintaining a nuisance. In municipal court Mr. Larrabee plead not guilty, but the court found him guilty and imposed a fine of \$100 in each case.

EXTEND BUS SERVICE

Bemidji-Brainerd Line Inaugurated Connects With Minneapolis-Brainerd

(From Bemidji Daily Pioneer) Beginning Tuesday, Bemidji is to have auto bus service to all towns south of here as far as Brainerd, over the Bemidji-Brainerd highway, with stops at all of the main towns en route. This service will meet the Minneapolis-Brainerd service and thus give bus service the entire route.

Olson & Westness, proprietors of the Bemidji Transportation company, and Anton Wold, also of Bemidji, form the new bus concern and will operate two large White busses, one to make the trip each way each day, the Bemidji bus to leave Brainerd at 10:30 a. m. and the Brainerd bus to leave here at 10:30. The first trip to Brainerd will be made Tuesday, leaving here at 10:10, while on Wednesday both busses will be in operation. The distance is 118 miles and a schedule fare has been arranged for all the various stops. The two busses to be used have a capacity of 18 passengers. One of these is a new White, purchased only last week and is one of the very latest design.

An experiment trip with one of the big busses was made last week and a timing trip was made with a touring car Sunday so that the schedule is now complete. The trip with the bus takes five hours and fifty minutes.

Towns on this route are Cass Lake, Benedict, Walker, Hackensack, Backus, Pine River, Mildred, Jenkins, Pequot, Nisswa and Brainerd. This Bemidji company plans to operate the bus line as late as possible this fall and resume operations again, as early as possible in the spring if the line proves successful.

A Singer Should Know Music

It is the belief of Riccardo Martin, famous tenor, who will sing here October 14th, that a singer should know something of the technical side of music. "The singer who does," says Mr. Martin, "stands in a better position for winning success." Riccardo Martin, who appears here under the auspices of the Brainerd Musical club in a Sunday recital, is not only America's greatest tenor, but is a musician of the first rank. He has studied harmony, theory and counterpoint and also tried a hand at composition. His songs have been published and best of all—sung.

Mr. Martin's full program will be published in this paper early next week, but we can't refrain from mentioning one of two numbers in advance. The last song in group four is "Vieni Giocare," from the Russian, (Italian verses by Riccardo Martin.) by the composer, Blechmann, and in group six is "Songs My Mother Taught Me," by Dvorak. And there are at least two grand operatic pieces de resistance to this musical meal about to be spread for the music lovers of this city.

Bethlehem Lutheran Ladies Aid The ladies aid of the Bethlehem Lutheran church will meet tomorrow afternoon, Thursday, in the church parlors, entertained by Mrs. Toger Peterson and Mrs. Charles Peterson. Visitors welcome.

ARMISTICE DAY PROGRAM PLANNED

American Legion Post Names Committee to Arrange All Details

DANCE MONDAY, NOVEMBER 12 Local Post to Present Large American Flag to the Boy Scouts of the City

The American Legion, at the regular Post meeting on Monday night, made plans for the observance of Armistice Day, Nov. 11th, with a suitable program. This date falls on Sunday this year. A committee has been appointed to arrange for this program. Another committee was appointed to plan the annual Armistice Day dance, to be held on Monday evening, November 12th.

The local post decided to present a large American flag to the Boy Scouts of the city, and a small flag to each troop in Brainerd as it is organized and qualified.

LeRoy Uptagraff, of Aitkin, in charge of trainees who are located on farms in this district, reported on conditions existing among these trainees. E. G. Roth was appointed chairman of a committee in charge of the veterans' welfare.

The ritualistic work of the Legion was carried out at Monday's meeting, this action being made compulsory at the last state convention.

In the social program which followed the business session, Capt. A. A. Gieriet's fast crew won over Capt. Jerald McGivern's crew in a very sensational yacht race.

R. S. Wilcox was presented with the past commander's ring, a beautiful piece of jewelry, in an elaborate ceremony, the presentation speech being made by Commander Arthur Lyndon.

A Singer Should Know Music

It is the belief of Riccardo Martin, famous tenor, who will sing here October 14th, that a singer should know something of the technical side of music. "The singer who does," says Mr. Martin, "stands in a better position for winning success." Riccardo Martin, who appears here under the auspices of the Brainerd Musical club in a Sunday recital, is not only America's greatest tenor, but is a musician of the first rank. He has studied harmony, theory and counterpoint and also tried a hand at composition. His songs have been published and best of all—sung.

Mr. Martin's full program will be published in this paper early next week, but we can't refrain from mentioning one or two numbers in advance. The last song in group four is "Vieni Giocare," from the Russian. (Italian verses by Riccardo Martin.) by the composer, Bleichmann, and in group six is "Songs My Mother Taught Me," by Dvorak. And there are at least two grand opera arias, pieces de resistance to this musical meal about to be spread for the music lovers of this city.

Bethlehem Lutheran Ladies Aid The ladies aid of the Bethlehem Lutheran church will meet tomorrow afternoon, Thursday, in the church parlors, entertained by Mrs. Toger Peterson and Mrs. Charles Peterson. Visitors welcome.

ARMISTICE DAY PROGRAM PLANNED

American Legion Post Names Committee to Arrange All Details

DANCE MONDAY, NOVEMBER 12 Local Post to Present Large American Flag to the Boy Scouts of the City

The American Legion, at the regular Post meeting on Monday night, made plans for the observance of Armistice Day, Nov. 11th, with a suitable program. This date falls on Sunday this year. A committee has been appointed to arrange for this program. Another committee was appointed to plan the annual Armistice Day dance, to be held on Monday evening, November 12th.

The local post decided to present a large American flag to the Boy Scouts of the city, and a small flag to each troop in Brainerd as it is organized and qualified.

LeRoy Uptagraft, of Aitkin, in charge of trainees who are located on farms in this district, reported on conditions existing among these trainees. E. G. Roth was appointed chairman of a committee in charge of the veterans' welfare.

The ritualistic work of the Legion was carried out at Monday's meeting, this action being made compulsory at the last state convention.

In the social program which followed the business session, Capt. A. A. Gieriet's fast crew won over Capt. Jerald McGivern's crew in a very sensational yacht race.

R. S. Wilcox was presented with the past commander's ring, a beautiful piece of jewelry, in an elaborate ceremony, the presentation speech being made by Commander Arthur Lydson.

GIANTS HAVE EDGE ON WORLDS SERIES

By HENRY L. FARRELL
United Press Sports Editor

New York, Oct. 3.—Age-worn and time-proven axioms that dope is never infallible and that nothing is certain in baseball make complicated this fall the process of arriving at some accurate forecast on the result of the 1923 world's series.

With the same two teams almost man for man that engaged in the two past series, the dope, but for its known tendency to get off the track at times, would indicate that the New York Giants would be a safe bet to win another world's championship at the expense of their Bronx rivals.

On the basis of form and past performances, the most approved method of doping, the Yankees have only a small chance to turn the tables and beat the team that won rather easily from them in 1921 and made them look like saps in 1922.

In personnel and the basis mechanics of baseball, the Yanks are no better this year than they were last year. Their biggest asset is the same superiority in pitching that was expected to overcome the Giants last fall and which failed miserably to do it.

In the flesh it is the same Yankee team, the same players, the same style of game and the same erratic temperament, but in morale and spirit, it is a vastly different ball club that will try to live up to the good things expected of it in 1921 and 1922.

Although superficial judgment would justify the belief that the Yanks are too old a ball club to stir themselves out of the beaten path that led them to two fine trimmings, many wise baseball fans are picking the American League champions to beat the Giants because of the stability, the harmony and the winning spirit they displayed in running away with their third straight pennant.

The Yanks did show a most impressive change in temperament from the very first day of the season. It was apparent that they considered the business of winning the pennant a very serious proposition in which the financial end was too important to permit of laxity in training or in playing.

With Babe Ruth setting a most exemplary style of living and paying close attention to business, the Yanks subordinated petty personal feelings, broke up factional cliques and worked in harmony for the common cause.

It is the change in morale and the cultivation of a winning spirit that will bring the Yankees to their first world's championship—if they do get there.

Another important factor to consider in figuring the chances of the Yankees is the known fact that from the early part of the season, when it began to appear certain that nothing but bad luck or injuries could keep them out of the world's series, the club has been living, playing and planning only to beat the Giants and vindicate themselves.

The Yankees felt, individually and collectively, the deepest humiliation over the sorry showing they made in the series last year, when the best they could do was to get a tie in one game. They felt that they were not only a better club than they looked, but that they were a better team than the Giants. They claimed they were caught in a slump that came as a reaction after the hard fight they had to win the pennant and that the Giants found them in the state of a general let-down.

Granting that the team might have been in a general slump, that the star pitchers were disheartened by the lack of support and that the whole team was stale, the American League champions ought to be in better shape this year because they had more than two weeks to break the strain after they had won the pennant and the same time in which to prepare themselves for the pennant.

Perhaps the strain, which forced the Giants to go their limit until almost the last minute of the season, will have the same effect that it worked on the Yankees last year, although John McGraw has said in the past that he preferred to keep his club going at top speed instead of allowing them to let down and then getting them back on edge again.

Managers and players of rival clubs in the American League have expressed the opinion that the Yanks are a greatly improved ball club and they pointed out that the easy victory of the New Yorkers in the pennant race was not due to any real decrease in the strength of the contending clubs, but was the result of the great improvement in the champions.

While everything depends upon the mental factor on the Yankee team, it will be of no importance with the Giants. Two impressive victories over the Yanks will give the National League champions a mental edge over their opponents and will of necessity increase the confidence that they might lack with such mediocre pitching.

Having been victorious in two battles behind the same kind of pitching, having had little trouble with the star pitchers of the Yanks and having stopped the great Babe Ruth plenty, the Giants will not need to be put through any mental exercises by McGraw.

The Giants can be depended upon to outsmart the Yankees if it comes to a battle of brains, and it was quick thinking and spontaneous action that turned the tide in two of the games last fall when the Yankees gave evidence of having left their brains in the club house. McGraw's teams always play smart, baseball because they take orders on every play from the bench and it is not to the discredit of Miller Huggins to give McGraw credit for more baseball brains. He has more baseball knowledge than any manager of all time.

Position by position, the Giants and the Yankees are not badly matched. Tomorrow the outfields of the two clubs will be discussed and compared.

Orioles Again Beat Yanks

Baltimore, Oct. 3.—The Orioles, five times pennant winners in the International league, defeated the New York Yankees in the second game of the three game series, 4 to 0. The locals beat the American league champions the day before, 10 to 6. Babe Ruth retired after the first inning to give his injured ankle a rest.

"DOUGLAS FAIRBANKS IN ROBIN HOOD"

Noted Players in Fairbanks Picture

So far as personalities are concerned, floundering is a land of surprises. It is difficult to tell who is who since the costume drama has come into its most popular vogue and has caused a marked shifting around in the casting of pictures. People who have been in the background for a long time are coming prominently to the front and conventional types are retiring rapidly from their eminence. Take "Douglas Fairbanks in Robin Hood," a United Artists release showing at the New Park to-night and Thursday for instance. Douglas Fairbanks, the star and producer of this biggest of all romantic photoplays, made some wide departures from traditions in selecting his supporting cast for this most ambitious film of his brilliant career, and, consequently, there are many anomalies in the personnel of the delineators of the various roles.

"Old Fiddlers Nite" at the Lyceum

Patrons of the Lyceum tonight will be treated with an unusual musical offering, when Mr. Manuel Capistrant the local champion "Old Fiddler" will endeavor to play an "old tune" the audience wishes. It is said that Mr. Capistrant plays nearly any old tune you can think of by memory and a distinct novelty is that he can play them from behind his back as well as in front. You can imagine the hit this act is going to make tonight. He will appear at the end of the first show only.

"Love's Boomerang"

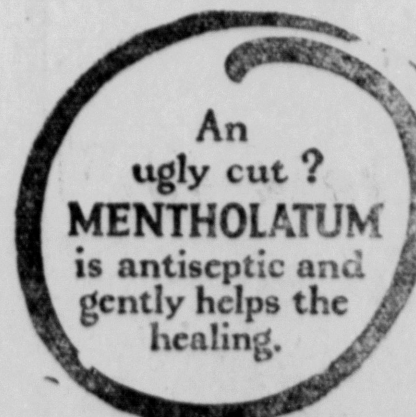

One of the best casts ever assembled in any Paramount picture, is that assembled by John S. Robertson, producer, in "Love's Boomerang", a delightful photoplay of circus life which will be shown at the Lyceum theatre tonight and Thursday. The featured players are Ann Forrest and David Powell, both well known to American picture fans. Clyde Cook the sober faced comedian will also be shown on the same program in "The Artist", a feature comedy.

Ravines and Glades.

When the sun is streaming down, flecking the foliage of trees and perhaps also of ferns with splashes of light, few photographers can resist taking a picture. Yet these are seldom successful, because when the scene is produced in scale in a photograph the effect is often spotty. This spottiness must be looked for and dodged. If the work is being done against the light care must be taken to shield the lens from any direct rays. In such circumstances the minimum exposure will be found to be quite surprisingly long, and any estimate of it may well be doubled or trebled without any fear of over exposure. To attempt such subjects with the sun behind the camera is to court failure, as all sense of depth will be lost.

He Won the Bet

"I was skeptical of all medicines and doctors. A friend advised me to take May's Wonderful Remedy and assured me it had cured him of his stomach trouble. I didn't take any stock in it and he bet me \$50 that it would be equally successful in my case. He won the bet." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.

With Babe Ruth setting a most exemplary style of living and paying close attention to business, the Yanks subordinated petty personal feelings, broke up factional cliques and worked in harmony for the common cause.

It is the change in morale and the cultivation of a winning spirit that will bring the Yankees to their first world's championship—if they do get there.

Another important factor to consider in figuring the chances of the Yankees is the known fact that from the early part of the season, when it began to appear certain that nothing but bad luck or injuries could keep them out of the world's series, the club has been living, playing and planning only to beat the Giants and vindicate themselves.

The Yankees felt, individually and collectively, the deepest humiliation over the sorry showing they made in the series last year, when the best they could do was to get a tie in one game. They felt that they were not only a better club than they looked, but that they were a better team than the Giants. They claimed they were caught in a slump that came as a reaction after the hard fight they had to win the pennant and that the Giants found them in the state of a general let-down.

Granting that the team might have been in a general slump, that the star pitchers were disheartened by the lack of support and that the whole team was stale, the American League champions ought to be in better shape this year because they had more than two weeks to break the strain after they had won the pennant and the same time in which to prepare themselves for the pennant.

Perhaps the strain, which forced the Giants to go their limit until almost the last minute of the season, will have the same effect that it worked on the Yankees last year, although John McGraw has said in the past that he preferred to keep his club going at top speed instead of allowing them to let down and then getting them back on edge again.

Managers and players of rival clubs in the American League have expressed the opinion that the Yankees are a greatly improved ball club and they pointed out that the easy victory of the New Yorkers in the pennant race was not due to any real decrease in the strength of the contending clubs, but was the result of the great improvement in the champions.

While everything depends upon the mental factor on the Yankee team, it will be of no importance with the Giants. Two impressive victories over the Yanks will give the National League champions a mental edge over their opponents and will of necessity increase the confidence that they might lack with such mediocre pitching.

Having been victorious in two battles behind the same kind of pitching, having had little trouble with the star pitchers of the Yanks and having stopped the great Babe Ruth plenty, the Giants will not need to be put through any mental exercises by McGraw.

The Giants can be depended upon to outsmart the Yankees if it comes to a battle of brains, and it was quick thinking and spontaneous action that turned the tide in two of the games last fall when the Yankees gave evidence of having left their brains in the club house. McGraw's teams always play smart baseball because they take orders on every play from the bench and it is not to the discredit of Miller Huggins to give McGraw credit for more baseball brains. He has more baseball knowledge than any manager of all time.

Position by position, the Giants and the Yankees are not badly matched. Tomorrow the outfields of the two clubs will be discussed and compared.

Orioles Again Beat Yanks

Baltimore, Oct. 3.—The Orioles, five times pennant winners in the International league, defeated the New York Yankees in the second game of the three game series, 4 to 0. The locals beat the American league champions the day before, 10 to 6. Babe Ruth retired after the first inning to give his injured ankle a rest.

CONCORDIA CRIPPLED FOR ST. OLAF CONTEST

Moorhead, Minn., Oct. 3.—Joy and gloom both had their innings at the Concordia football camp, when it was announced by F. H. Watkins, coach, that Otto Knutson, tackle on the 1922 eleven, had returned to school and that five of his most dependable players may not be able to start in the St. Olaf game Saturday. Brewster and Lawrence, half-backs; Captain Meland, center; Ahrens, guard, and Severson, end, are his cripples with the first two probably seriously enough injured to keep them out of the St. Olaf game. The others may be able to start in the contest.

be held Thursday, Friday and Saturday of this week.

Each race will be held three days later because of rains Sunday which flooded the St. Louis flying field.

The Pulitzer 200 kilometer race for the world's speed championship will be held Saturday instead of Wednesday as originally scheduled.

Flooded condition of the grounds put the field in such condition that it would be dangerous for the fliers to alight at the high speeds necessary, a committee of the air board, army and navy officials decided, before announcing the postponement. The sessions of the Air Institute of the Aeronautical Chamber of Commerce will be held the first three days of this week as scheduled.

Not a Bad Philosophy.

I do not think that the road to contentment lies in despising what we have not got. Let us acknowledge all good, all delight that the world holds, and be content without it.—George Macdonald.

"DOUGLAS FAIRBANKS IN ROBIN HOOD"

Noted Players in Fairbanks Picture in Robin Hood," a United Artists release showing at the New Park to night and Thursday for instance, Douglas Fairbanks, the star and producer of this biggest of all romantic photoplays, made some wide departures from traditions in selecting his supporting cast for this most ambitious film of his brilliant career, and, consequently, there are many anomalies in the personnel of the delineators of the various roles.

"Old Fiddlers Nite" at the Lyceum Tonight
Patrons of the Lyceum tonight will be treated with an unusual musical offering, when Mr. Manuel Capistrant the local champion "Old Fiddler" will endeavor to play any "old tune" the audience wishes. It is said that Mr. Capistrant plays nearly any old tune you can think of by memory and a distinct novelty is that he can play them from behind his back as well as in front. You can imagine the hit this act is going to make tonight. He will appear at the end of the first show only.

"Love's Boomerang"
One of the best casts ever assembled in any Paramount picture, is that assembled by John S. Robertson, producer, in "Love's Boomerang", a delightful photoplay of circus life which will be shown at the Lyceum theatre tonight and Thursday. The featured players are Ann Forrest and David Powell, both well known to American picture fans.

Clyde Cook the sober faced comedian will also be shown on the same program in "The Artist", a feature comedy.

Ravines and Glades.
When the sun is streaming down, flecking the foliage of trees and perhaps also of ferns with splashes of light, few photographers can resist taking a picture. Yet these are seldom successful, because when the scene is produced in scale in a photograph the effect is often spotty. This spottiness must be looked for and dodged. If the work is being done against the light care must be taken to shield the lens from any direct rays. In such circumstances the minimum exposure will be found to be quite surprisingly long, and any estimate of it may well be doubled or trebled without any fear of over exposure. To attempt such subjects with the sun behind the camera is to court failure, as all sense of depth will be lost.

He Won the Bet

"I was skeptical of all medicines and doctors. A friend advised me to take May's Wonderful Remedy and assured me it had cured him of his stomach trouble. I didn't take any stock in it and he bet me \$50 that it would be equally successful in my case. He won the bet." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.
